

Chartered Accountants & Registered Auditors

Orthopaedic Research UK (ORUK) has appointed BWB to provide management accounts, tax services, book keeping and payroll services

ORUK is one of the country's leading charities working to improve the lives of people with bone and joint disease and injury.

Currently, 8.5 million people in the UK, of all ages, are affected by orthopaedic complaints including trauma injuries, degenerative diseases such as arthritis and osteoporosis, infections, bone tumours and congenital disorders such as muscular dystrophy.

ORUK's ultimate aim is to eliminate bone and joint disease. To help achieve this vision we fund life-changing research in centres of excellence across the UK and work to advance orthopaedic knowledge through the provision of high quality training and education.

We are one of the country's most significant funders of orthopaedic research, having so far awarded grants totalling over £8.5million to leading universities, NHS Trusts and research centres in the UK and overseas.

That funding has helped develop improved artificial joints and limbs, led to advances in pain relief, provided vital insights into bone disease and improved the treatment of injuries arising from accidents or sporting activities.

Chartered Accountants & Registered Auditors

ORUK is seeking to raise £2.5m in voluntary income over the next five years to continue supporting vital translational research which will reduce suffering and improve the quality of millions of lives.

If you would like to find out more or make a donation then go to ORUK's website www.oruk.org

"We are really pleased we switched to BWB for our internal accounting function. They have streamlined the entire process and we now have up-to-date, relevant management accounts information which means we are better able to focus on the future of the charity itself." CEO, Orthopaedic Research UK
